Not illustrated. 1890 Excerpt: .but from l to two feet at the bottom of the mine is inferior coal of which only a part is sent out, and the balance not used, leaving five feet of valuable coal. It is shown that the additional cost of working this.mine over the Imperial mine is \$43.85 per day for labor. The evidence does not show whether all the shaft mines require the same additional expense as the Port Royal mine, although the proof is to the effect that the cost in all the mines, with the exception of three or four, is substantially the same. The testimony shows that the selling price of coal at the lakes is fixed by an understanding or combination among the various operators, to which nearly all of them are parties. The price of coal lands enters to a considerable extent into the general cost of production, and much diversity of price was shown to exist. This diversity was caused principally by the distance of the lands from the lines of railroad, and by the thickness or thinness of the veins of coal. As a general rule the price of the lands containing the thinner veins of coal is considerably less than for that containing the thicker veins, and the distance from the line of railroad to which the coal has to be taken largely affects the price. In the locality where the complainant s mines are situated the average price, as nearly as can be gathered...
