Excerpt: . . . 15 data each year and deliver these data to scientists across the world. We have learned important lessons from these test beds. By sharing our evaluations with vendors we have enabled them to produce better products to meet critical scientific and national security missions. Our spending complements commercial R and D in IT which is focused on product development and on the demands of commercial applications which generally place different requirements on the hardware and software than do leading edge scientific applications. The Office of Science coordinates with other federal agencies to avoid duplication of efforts. In the areas where the Office of Science (DOE - SC) focuses its research - High-End Computing and Large Scale Networking - DOE - SC co-chairs the relevant federal coordinating group. In addition to this mechanism, DOE - SC has engaged in a number of other joint planning and coordination...
