

Radiation Hazard in Space

Filesize: 6.37 MB

Reviews

Most of these pdf is the perfect ebook available. It is actually rally intriguing throgh reading period. I am pleased to explain how this is actually the greatest ebook we have read within my personal life and might be he finest publication for actually.

(Prof. Dario Lang)

RADIATION HAZARD IN SPACE

To download **Radiation Hazard in Space** PDF, please access the link under and download the ebook or get access to additional information which are related to RADIATION HAZARD IN SPACE ebook.

Book Condition: New. Publisher/Verlag: Springer Netherlands | The mono graph contains 8 chapters, and their contents cover all principal aspects of the problem: 1. Introduction and brief history of the radiation problem and background information of radiation hazard in the near-Earth and interplanetary space. 2. General description of radiation conditions and main sources of charged particles in the Earth's environment and interplanetary space, effects of space environment on spacecraft. 3. Basic information about physical conditions in space and main sources of charged particles in the Earth's environment and interplanetary space, in the context of "Space Weather" monitoring and prediction. 4. Trapped radiation belts of the Earth (ERB): theory of their origin, spatial and temporal dynamics, and experimental and statistical models. 5. Galactic cosmic rays (GCR): variations of energetic, temporal and spatial characteristics, long-term modulation, and anomalous cosmic ray (ACR) component, modeling of their dynamics. 6. Production of energetic particles (SEPs) at/near the Sun: available databases, acceleration, propagation, and prediction of individual SEP event, statistical models of solar cosmic rays (SCR). 7. Existing empirical techniques of estimating, prediction and modeling of radiation hazard, methodical approaches and constraints, some questions of changes in the Earth's radiation environment due to changes of the solar activity level. 8. Unresolved problems of radiation hazard prediction and spacecraft protection, radiation experiments on board the spacecraft, estimating of radiation conditions during interplanetary missions. Space does not allow us to explain every time the solar-terrestrial and radiation physics nomenclature used in current English-language literature. | Preface. 1: Introduction and Brief History. 1.1. Space Radiation Environment. 1.2. Identification of Radiation Hazard. 1.3. Multilevel Nature of the Problem. 1.4. Recent Developments. 1.5. General Picture of Radiation Disturbance. 2: Radiation Conditions in Space. 2.1. Character of Radiation Influence. 2.2. Main Concepts, Definitions and Terms. 2.3. Objects of Radiation Impact. 2.4. Dynamics...
