Book Condition: New. Publisher/Verlag: Springer, Berlin | In Honor of Samuel D. Conte | Proceedings of a conference held in West Lafayette, Indiana, November 1-3, 1989 | This book is the proceedings of a conference held November 1-3, 1989, to honor Samuel D. Conte for his many contributions to computer sciences at Purdue University and to the profession as a whole. The computer sciences program reflected the breadth of Conte's interests and accomplishments; there were tributes to Conte, perspectives on computer science itself, and research papers. The first part of these proceedings chronicles the career and contributions; much of it is based on Conte's remarks made at the conference banquet. The second part of the proceedings starts with one vision of the future of computer sciences given in Peter Denning's keynote address. Historical accounts of building successful educational programs in computer sciences follow. The third part consists of seven research contributions, primarily from past or present colleagues. These include Conte's numerical analysis, computational geometry, and discussions of software engineering. The conference was organized by the Purdue University Department of Computer Sciences and the Software Engineering Research Center at Purdue. Both of these organizations were founded by Conte, so is fitting for them to recognize their founder's achievements in such a concrete way. | Samuel D. Conte: Introduction; F. Haas. Computer Science: Past and Future: Worldnet; P.J. Denning. The Origins of Computing and Computer Science at Purdue University; S. Rosen, J.R. Rice. History of the Computer Sciences Department at Purdue University; J.R. Rice, S. Rosen. An Overview of the Carnegie Mellon University Master of Software Engineering Program; N.E. Gibbs. Lessons Learned in Building a Successful Undergraduate Information Systems Academic Program; T.I.M. Ho. Research Contributions: Polynomial Interpolation in Several Variables; C. de Boer.
