But it must be recollected that the climate and much of the food, and, consequently, the general management of the horse in Great Britain, are so different from what they necessarily must be in North America, that great injury is often done to this noble animal by following British instructions too closely in his rearing, and above all, in his stable management. The horse, both theoretically and practically, has been a favorite study with me from childhood; and for the past ten years, I have been more or less engaged in breeding and rearing them on my farm, and in breaking and fitting them for market. I also had in early life, during a residence of nearly two years in...
