GEORGE W. BUSH AND THE REDEMPTIVE DREAM: A PSYCHOLOGICAL PROFILE (HARDBACK)

DOWNLOAD

Oxford University Press Inc, United States, 2010. Hardback. Book Condition: New. 175 x 132 mm. Language: English . Brand New Book. George W. Bush remains a highly controversial figure, a man for whom millions of Americans have very strong feelings. Dan McAdams book offers an astute psychological portrait of Bush, one of the first biographies to appear since he left office as well as the first to draw systematically from personality science to analyze his life. McAdams, an international leader in personality psychology and the narrative study of lives, focuses on several key events in Bush s life, such as the death of his sister at age 7, his commitment to sobriety on his 40th birthday, and his reaction to the terrorist attacks of September 11, and his decision to invade Iraq. He sheds light on Bush s life goals, the story he constructed to make sense of his life, and the psychological dynamics that account for his behavior. Although there are many popular biographies of George W. Bush, McAdams is the first true psychological analysis based on established theories and the latest research. Short and focused, written in an engaging style, this book offers a truly penetrating look at our forty-third president.
