

## Innovative Financing Mechanisms for the Water Sector

By OECD Organisation for Economic Co-operation and Development

OECD Publishing. Paperback. Book Condition: New. Paperback. 142 pages. Dimensions: 8.9in. x 6.2in. x 0.5in. This report examines innovative mechanisms that can help attract new financial resources into water and sanitation services. In particular, it focuses on mobilising market-based repayable financing (such as loans, bonds and equity) as a way of bridging the financial gap to meet the water-related Millennium Development Goals and other crucial sector objectives. The Camdessus and Gurra reports, published seven and four years ago, respectively, formulated a number of recommendations in this area. This report examines the extent to which these recommendations have been implemented. It looks at the rapidly evolving global context and to the ongoing financial and economic crisis, and considers how innovation in financing for the water sector may need to adapt. Table of Content : Foreword (and Acknowledgements) Abbreviations and acronyms Executive summary Introduction-Overview-Target audience-Structure of this report Chapter 1. Setting the stage-1. 1. Financial flows for water and sanitation services-1. 2. Why focus on market-based repayable finance in this report-1. 3. Why is innovation needed to increase market-based repayable finance-1. 4. Previous recommendations and their follow-up Chapter 2. Mobilising market-based repayable finance-2. 1. Potential recipients of market-based repayable finance-2. 2. Potential sources-2. 3. Critical mismatches driving innovation: a summary Chapter...

### Reviews

*It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover.*
